NJCU Internship Performance Assessment Results
Spring 2015-Spring 2017

University clinical supervisors complete an Internship Performance Assessment (IPA) evaluation 7 times during the semester for undergraduate and graduate students enrolled in clinical practice. Reported scores are for the final student evaluation of the semester. Students were given a holistic evaluation score for "Assessment" based on the following criteria:

5: Assessment (INTASC 6; NJ Professional Std. 6; CAEP 1.2, 1.3)
Candidates shall understand and use multiple assessment strategies and interpret results to evaluate and promote student learning and to modify instruction in order to foster the continuous development of students.

5.1 Uses formative and summative assessment data to adjust and improve instruction.

5.2 Provides meaningful and specific feedback to students on their learning.

5.3 Uses multiple formal and informal assessment techniques to foster continuous development of students.

Scale

Students were scored using the following scale, with scores of 3 and above considered to be above the cut score:

4=Effective
3=Partially Effective
2=Minimally Effective
1=Not Effective
0=Not Observed

Notes:

Students who received a score of "not applicable" were omitted from this report. Rubric scoring for the Internship Performance Assessment was changed as of the Fall 2017 semester.

Score Distribution by Term

	Not Meeting Cut Score			Meeting Cut Score		Total Candidates
	SCORE: 0	SCORE: 1	SCORE: 2	SCORE: 3	SCORE: 4	
Spring 2017	0	0	0	9	60	69
Fall 2016	0	0	0	3	41	44
Spring 2016	1	0	0	15	52	68
Fall 2015	0	0	2	15	43	60
Spring 2015	3	0	0	12	69	84
