New Jersey City University offers Air Force ROTC through a cross-town program at New Jersey Institute of Technology (NJIT) in Newark, New Jersey. Any NJCU student who has completed 24 semester hours of college coursework and is enrolled as a fully qualified Air Force ROTC Cadet is eligible for an \$18,000 per year scholarship towards tuition and fees at NJCU. The scholarship also includes \$900 per year towards books and a monthly stipend ranging from \$300 - \$500 per month. Please contact Captain Haury at 973-596-3626 or at [jhaury@njit.edu](mailto:jhaury@njit.edu) for more information.

Reserve Officer Training Corps (ROTC) is an educational program designed to give men and women the opportunity to become Air Force officers while completing their undergraduate degrees and in some cases their master degrees. The Air Force ROTC program is designed to prepare you to assume positions of increasing responsibility and importance in the modern Air Force. Air Force ROTC offers two primary routes to an Air Force commission at over 700 institutions throughout the continental United States, Hawaii, and Puerto Rico: the Air Force ROTC Four-Year Program and the Air Force ROTC Two-Year Program.

The Four-Year Program: The General Military Course (GMC) is the first half of the Four-Year Program and is generally taken during your freshman and sophomore years. This program allows you to "try out" Air Force ROTC for up to two years without incurring any obligation (unless on an Air Force scholarship). As you attend a one-credit-hour class each semester, you'll learn more about the Air Force and the historical development of airpower. The second half, called the Professional Officer Course (POC), is highly competitive. These junior and senior level 3-credit courses cover management and leadership skills, national defense policy and preparation for active duty.

The Two-Year Program: This program, also called the POC, is primarily available to junior college transfer students, sophomores, and veterans who have at least two years of college remaining (undergraduate, graduate, or combination of the two). It's especially for those who are majoring in selected scientific and technical areas, such as mathematics, physics, meteorology, engineering, and computer science. This program is highly competitive, so it is important to apply early in your sophomore year. The leadership, national defense policy, and active duty program courses are the same as those offered in the second half of the Four-Year Program.
