WHY NURSING?

The most recent Gallup poll revealed that 85% of Americans rated nurse's honesty and ethical standards as "high" or "very high" and nursing has been rated as the #1 most ethical and honest profession for the past 18 years.

Nurses educate and innovate. Nursing research informs practice. Caring, teaching, and advocating for patients, families, communities, and populations. Why not nursing?

Why NJCU Nursing?

ALUMNI QUOTES

“NJCU prepared me for the real world of nursing. Both the academics and clinical components set me up with the tools I needed for a successful career as an ICU nurse!.”

Jhinoos Yanoff, RN, BSN

“From the day I began the program, I knew I gained the most intelligent, educated, nurturing mentors. Most importantly, the faculty wanted nothing more than for each one of us to succeed, not only in the program, but in our careers as well! In addition to the classroom knowledge, I gained an enormous amount of experience, confidence, clinical decision-making skills, and a classroom of students who became my family!”

Ashley Capone-Yuka, RN, BSN

“A great education experience with the right mix of discipline, didactic, and professional exposure.”

Sanjay Ahlawat, RN, BSN
