NEW JERSEY CITY UNIVERSITY ALCOHOL AND OTHER DRUGS POLICY

(Updated 4/1/2011 by the AOD Task Force; Updated and approved by the DOS 8/22/2012)

A. ALCOHOL AND OTHER DRUGS (AOD) POLICY

New Jersey City University is committed to maintaining an alcohol and drug-free environment/workplace in compliance with applicable laws. While recognizing that the responsible and lawful use of alcohol and other drugs is socially acceptable in our society, the University regards the abuse of these substances and the use of illicit drugs as antithetical to its mission. Therefore, NJCU permits the use of alcohol and other drugs only in a manner that is responsible and adheres to restrictions imposed by law and the Universities' standards of conduct. The unlawful use, possession, manufacture, or distribution of alcohol or other drugs by students or by employees is prohibited on University property or as a part of University activities.

B. PURPOSE

The Drug-Free Schools and Campuses Regulations (34 CFR Part 86) require that, as a condition of receiving funds or any other form of financial assistance under any federal program, an institution of higher education must certify that it has adopted and implemented a program to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees.

In order to certify its compliance with the regulations, the College is required to: (1) prepare a written policy on alcohol and other drugs; (2) develop a sound method for distribution of the policy annually to every student and employee; (3) conduct biennial reviews of the effectiveness of its program and the consistency of sanction enforcement; and (4) maintain biennial review reports and supporting documents on file, available for inspection by the U.S. Department of Education.

To fulfill the purpose of this <u>student policy</u> in promoting safe and legal behavior regarding the use of alcohol and other drugs, any student found to be using, possessing, manufacturing, or distributing alcohol and/or other controlled substances, in violation of the law, on University property or at University events, shall be subject to disciplinary action in accordance with policies of the State of New Jersey and New Jersey City University.

Further, students who violate this policy will be subject to sanctions which may include completion of an approved drug and alcohol education program or its "alternative", disciplinary warning, probation, suspension and/or expulsion from the University. Even in the most challenging situations, the university seeks first and foremost to educate its students and make decisions regarding disciplinary actions from an educative perspective (i.e., Restorative Justice as per the Code of Conduct). Therefore, sanctions such as

community service or an educational presentation may be imposed. In each case, factors such as the nature and gravity of the incident, the motivation underlying the behavior, the individual's disciplinary history and precedent in similar cases will be considered in determining the appropriate disciplinary action(s).

Additionally, the purpose for the Alcohol and Other Drugs Policy is to educate students and the community about the personal risks and the risks to others (physiological, psychological, emotional, familial, and social) of alcohol and other drug abuse or misuse; provide assistance, resources, and options for those who identify that they are at risk for alcohol and/or other drug abuse or misuse, or who are concerned about risk to another; and publicize and promote counseling, referral, and treatment options for those members of the campus community.

This policy was written and agreed upon in accordance with New Jersey City University philosophies and New Jersey State Laws with the safety of all students, faculty, staff and guests considered.

*The University Policies are consistent with state policies and complied with the Drug-Free Schools and Communities Act (DFSCA) and Drug and Alcohol Abuse Prevention Regulations.
