GETTING READY TO RETIRE

For Employees in the Alternate Benefit Program (ABP)

ELIGIBILITY FOR RETIREMENT

There is no minimum retirement age under the Alternate Benefit Program (ABP); however, lump sum cash distributions to members under the age of 55 are limited to the member's contributions and earnings. The remaining employer contributions and earnings are only available after age 55.

Members are required to take at least a minimum distribution of their ABP funds within 30 days of their retirement date. If you return to public employment in NJ, you cannot participate in any State-administered retirement system. The member is considered retired if they take a withdrawal of any kind from their ABP funds.

Information regarding the ABP can be found in [Alternate Benefit Program \(ABP\) - Fact Sheet #38.](#)

LIFE INSURANCE

While active employees, ABP members are covered by employer-paid life insurance, payable to their designated beneficiaries. Upon retirement, life insurance reduces to 50% of the annual base salary. It is available in retirement only to members age 60 or older, and only if the member has completed 10 years of participation in ABP.

Life insurance ceases 31 days after termination of employment. The member may convert existing life insurance (less any amount of coverage carried over into retirement) into an individual whole life policy. For more information, see the [Conversion of Group Life Insurance - Fact Sheet #13.](#)
