NURSING DEPARTMENT

NJCU | COLLEGE OF
PROFESSIONAL
STUDIES

LEARN ABOUT OUR DEPARTMENT

Become fully prepared to best serve your future patients! The NJCU faculty are highly qualified, ethnically diverse and represent multiple nursing specialties to deliver challenging curricula. Whether you want to pursue graduate study, develop your expertise in a specialty area, or assume a leadership position, the NJCU Nursing Department can help you get there!

DEGREES AND CERTIFICATIONS

Undergraduate

- 2nd Degree Accelerated Bachelor's of Science in Nursing (ABSN)
- RN-BSN

Graduate

- Master of Science in Nursing with Specialization in School Nursing
- School Nursing Certification

APPLE DISTINGUISHED SCHOOL

Our Nursing Education Center and classrooms utilize Apple devices; faculty and students are able to interact with apps and electronic learning materials, and benefit from course and hospital collaborations.

NURSING HONORS SOCIETY

Our Nursing department hosts the Kappa Eta Chapter of the Sigma International Nursing Honors Society. Students who are inducted will benefit from a strong network of professional development opportunities, and local, national, and international collaboration.

ACCELERATED BSN PROGRAM

The Accelerated BSN is a full-time, 12-month, 64-credit program for individuals who hold a bachelor's degree in any field and have completed the prerequisite courses. The program is very competitive, accepting roughly 70-80 students per year. Currently, there is one cohort offered per year for the program. Upon successful completion of the program, graduates will receive a Bachelor of Science in Nursing (BSN) degree and will be eligible to sit for the Registered Nurse Licensing exam (NCLEX-RN).

TAKE ADVANTAGE OF OUR ONLINE PROGRAMS!

The Nursing Department offers two, fully-online asynchronous programs. Course work is self-paced and offered throughout the year, with rolling admission to keep the working nurse in mind.

SCHOOL NURSE (CERT & M.S.)

Students who apply for the Graduate school nurse certificate program can select either the non-instructional or instructional certificate option.

Courses taken in the certificate track allow for continuation into the Master of Science in Nursing with a Specialization in School Nursing.

RN-BSN PROGRAM

Students who have earned an Associate's Degree, Diploma in Nursing, or a foreign equivalent, can earn a BSN in as little as 12-16 months!

Students can also enroll prior to licensure; New Jersey R.N. license required for degree completion.

ALUMNI QUOTE

"Upon getting accepted to the **Accelerated Bachelor of Science in Nursing program**, the sense of belonging and unconditional support was present. I can full heartedly say I had some of the best professors in the field when I attended this program, and it showed – especially in clinicals – when the nurses we were paired with said how amazing we were doing. NJCU is like a little gem. Its value is incomparable to anything else I've experienced before, and for that I am proud to be a two-time NJCU alum."

- Daniel Antunes BSN, RN-NJ
