

SUMMER 2025 MATH EMPORIUM

This is a 16-day MATH program offered by NJCU that helps students complete their pre-requisite level Math courses prior to the start of Fall 2025

How much does it cost?

Tuition is **FREE**, but students must commit to the 16-day program as an investment in their education to test out of Math 100 or 112.

When does it run?

July 7, 2025, to July 31, 2025 (Monday through Thursday)

From 9:00 a.m. to 1:00 p.m. using a **Hybrid** mode:

- *In-person on Mondays & Thursdays*
- *Online via Zoom on Tuesdays & Wednesdays*

What do I need?

Students must have internet access to a computer with a video camera and be engaged in classes during the scheduled Zoom sessions. Campus computers are also available as a convenient option for attending classes.

Participating completely online is not an option.

Does this affect my Financial Aid?

No, actually, this program helps you save your Financial Aid by giving you the opportunity to reduce the number of course hours required to complete your Math prerequisites.

How does it work?

Participants will engage in focused, skill-building activities designed to strengthen their foundation in Mathematics. Those who complete the Math Emporium program and pass the final exam may:

- Advance further and more quickly in their Math sequence.
- Become eligible for a grade change in select courses.
- Gain enhanced preparation for next-level Math courses.
- This program is a valuable opportunity to improve your math skills and set yourself up for academic success!
