

Undergraduate Research Internship

Title: Undergraduate Research Internship for the NJCU-KMI Center for Supply Chain and Maritime Logistics (CSCML) of the NJCU School of Business in Jersey City, NJ.

Eligibility: Undergraduate Students in NJCU: **Supply Chain Management (preferred)** / Business Analytics and Data Science / ASCM NJCU Student Forum Member / Exchange Student from South Korea

Skills: Microsoft Office 365, including Excel, and excellent communication skills

Salary: \$16.0 per hour

No. of Position: 2 students

Working hours: at least 10 hours, up to 20 hours per week (and 3 ~ 6 hours per day)

Office location: As designated at the NJCU Harborside Downtown Campus (School of Business)

Reports to: Faculty Director (Dr. EunSu Lee)

General Duties: In this role, a research intern will support the Center by collecting and analyzing data, summarizing information, and writing a report and by assisting for organizing the 2025 Annual Conference on November 13 and some related webinars to support the Center Director(s)

Apply Before Date: Applications will be reviewed immediately. For full consideration, please apply by October 13, 2025.

Research Background and Purpose: Changes in the global supply chain continue to accelerate due to shifts in U.S. tariff policies and other factors. Consequently, the logistics market in North America, including the United States, is also expected to undergo rapid transformation. This study aims to analyze various indicators—such as container throughput at major U.S. ports, freight volume on key rail lines, cross-border trade volumes, and utilization rates of U.S. warehouse facilities, etc.—to examine and forecast changes in the North American logistics market, thereby deriving implications.

How to Apply: Email Dr. EunSu Lee (elee3@njcu.edu) and Dr. Eunsoo Kim (ekim@njcu.edu) with your **(1) cover letter** and **(2) resume**.
