Bachelor of Science in Finance

Earn Your Business Degree Close to Home with NJCU's "3+1 Advantage"

Graduates of NJCU's Bachelor of Science in Finance program enter the workforce with an understanding of the role of financial institutions and knowledge of how assets and liabilities are managed. Finance majors learn the strategies for financial planning and risk management in domestic and international markets. A degree in finance prepares graduates for careers in commercial banking, corporate treasury, insurance, investment banking, and real estate.

Students also acquire the business skills necessary to plan and launch their own businesses and/or acquire and open a new or established franchise.

A degree from NJCU prepares students for graduate studies in all areas of business.

Graduates who earn the Bachelor of Science in Finance degree are encouraged to consider graduate degree programs offered by NJCU: the Master of Science in Accounting, Business Analytics & Data Science, or Finance; or the Master of Business Administration.

Why Choose NJCU For Your Degree?
