Bachelor of Science in Marketing

Earn Your Business Degree Close to Home with NJCU's "3+1 Advantage"

The B.S. in Marketing degree program is designed to provide students with a solid foundation in the knowledge, skills and abilities necessary for success in professional endeavors and advanced academic study. The curriculum allows students to build deep competency by offering the opportunity to select one of three areas of specialization: Marketing Analytics, Digital Marketing, and Integrated Marketing Communications & Public Relations.

Marketing courses complement the university classes students take in the natural and social sciences, arts and media, humanities, and quantitative and computer literacy. The result: a graduate who is both well-rounded educationally and job ready.

Marketing students network with professionals, gain experience and hone their professional capabilities through NJCU's Chapters of the American Marketing Association (AMA) and the Public Relations Student Society of America (PRSSA).

NJCU marketing students build their portfolio of experiences by taking advantage of internship opportunities throughout the metropolitan area at major corporations, marketing and communication firms, non-profit organizations and more.
