

OPPORTUNITY SCHOLARSHIP PROGRAM

WHAT IS OSP?

The Opportunity Scholarship Program (OSP) is the name for the Educational Opportunity Fund (EOF) at New Jersey City University. Through the years we've helped thousands of qualified students meet their academic and financial goals by providing access to education and assisting them to achieve their hopes and dreams for a better future. The program is rich in support services that focus on helping them do better in college than they did in high school.

GET THE RIGHT START

Each summer incoming OSP freshmen participate in a summer academy designed to refine their classroom skills and to assist them in developing academic and career objectives. During the five week session, students attend classes in writing, math and other subjects that prepare them for their coming university experience. In addition to classroom instruction students receive scheduled tutoring sessions and leadership seminars that develop personal goals, a sense of responsibility, and a feeling of personal empowerment. Summer program counselors and peer counselors help students navigate their way through personal and academic problems and are just there when they need someone to listen.

TO APPLY

Applicants must complete and submit the New Jersey City University admissions application preferably by Thanksgiving. When applying, they have to make sure they check the Yes Box for Question #22 on the admissions application to indicate they want to apply for EOF/OSP.

SUPPORT SERVICES

Individual Counseling

Students will receive personal attention from a counselor who will guide them through university life.

Services include:

- Academic Advisement to monitor academic progress.
- Personal Counseling helps with setting goals, managing time, and motivation to achieve their academic potential.
- Financial Advisement for successfully completing and understanding the financial aid process.
- Career Advisement to match them with educational programs, and ease their transition from school to the workplace and graduate school.
- Workshops that allow them to share experiences and strategies for success.
- Student Development activities where they explore various majors, careers and graduate school opportunities.
- Tutoring support help our students increase their study skills and gain proficiency in their courses. Tutors help students overcome any specific academic problems keeping them focused on their goals.
- Workshops in basic skills subjects are often included in the tutoring program.
